SALES BULLETIN

TOPIC: 200 SERIES UNIVERSAL BODY LOCK (U-Lock)

TO: ALL SWAPLOADER DISTRIBUTORS

SwapLoader is pleased to announce the release of our Universal Body Lock (U-Lock) designed for the 200 series hoists (SL-220, 222, 240, 2418). The 200 Series U-Lock compliments the previously released 100, 400, and HD series universal body locks.

- Designed to secure bodies/containers not built to SwapLoader Specifications.
- Designed for bodies with 6" long sill heights.
- U-Lock hydraulic cylinder has a built-in counterbalance valve.
- Includes an in-cab indicator light to notify driver of the U-Lock engagement.
- Simple to use; can engage in partially extended jib position if the mast lock is engaged.
- Can be used with electric, pneumatic, or manual 3-section controls.
- Bolt on design
-  Patent pending

Please contact your Regional Sales Manager or the SwapLoader main office for more information.
